

Probability Software Assignment

Siddhatn Godbole
Roll no -: CS22BTECH11010

Abstract—In this assignment I made a Music player in C which more focuses on shuffling and plays through mpg123.

PROCESS

- 1) I used srand to set rand and to randomise the song.
- 2) I use two arrays to make the randomization and play .
- 3) I have paid attention to give equal probabilities to the songs.
- 4) Then converted the array to play the songs .

SOME SNAPS OF MY MUSIC PLAYER
